### Artist Statement: Michelle Pheasant

I am currently developing a collection of the 'water' series. During the lockdown I have been working on the 'water' series. The idea is to create a series of images that will be used in a book. The idea is to create a series of images that will be used in a book. The idea is to create a series of images that will be used in a book.

I have been working on the 'water' series. The idea is to create a series of images that will be used in a book. The idea is to create a series of images that will be used in a book. The idea is to create a series of images that will be used in a book.

Liverpool Council Apologues

"We realise the fun of forty years ago when the  
Tyne's valley was transformed into a reservoir to  
help meet the water needs of Liverpool.

"For any incontinuity by our predecessor council at  
that time, we apologise and hope that the history and  
sound relationship between Liverpool and Walsby can  
be completely restored."

Wednesday 16th October 2008
